DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-10 are rejected under 35 U.S.C. 102(b) as being anticipated by Ladner et al. (6,331,825 B1).

Ladner et al. discloses a electronic target locating device that locates the coordinates of at least one target device and determines and determines directions for reaching the target device comprising a global positioning system (GPS) transceiver coordinate device having a means for communicating with a plurality of satellites, means for determining the location of at least one target device within a predetermined range and means for transmitting communications including information on the location of at least one target device and plurality of tracking devices for communicating with a GPS device, each of the tracking devices comprising means for communicating with the GPS device and at least one target, and means for determining a route for reaching the determined location of the target (Column 2 lines 25-54);

at least one antenna and an electronic receiver in communication with at least one antenna and having a plurality of channels adapted for individually

Application/Control Number: 10/625,862

Art Unit: 3663

communicating with a plurality of satellites whereby each channel tracks the transmissions from a single satellite (Column 2 lines 25-38);

a computer processor and at least one set of processor readable software code adapted for calculating the location coordinates of at least one target (Column 3 line 66 – Column 4 line 19);

a transmitter in communication with said means for determining adapted for transmitting location related information in digital format (Column 3 lines 20-40);

wherein the GPS comprises a means for receiving and supplying electrical power to a device (Column 2 lines 49-52);

wherein the tracking device comprises a means for communicating with a GPS device (Column 2 lines 39-46);

wherein said tracking device further comprises a monitor for locating the target and tracking the target on a map (Column 3 lines 27-40).

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Arthur Donnelly whose telephone number is (703) 305-0215. The examiner can normally be reached on Monday -Thursday on the first and third weeks of the month and from Monday - Friday on the second and forth weeks of the month from 8:00 a.m. to 4:30 p.m.

Art Unit: 3663

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thomas Black, can be reached on (703) 305-8233. The fax phone number for the organization where this application or proceeding is assigned is (703) 305-7687.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-1113.
